

DAY USE LOCKERS

BY SPACESAVER

UNLOCK THE POTENTIAL.

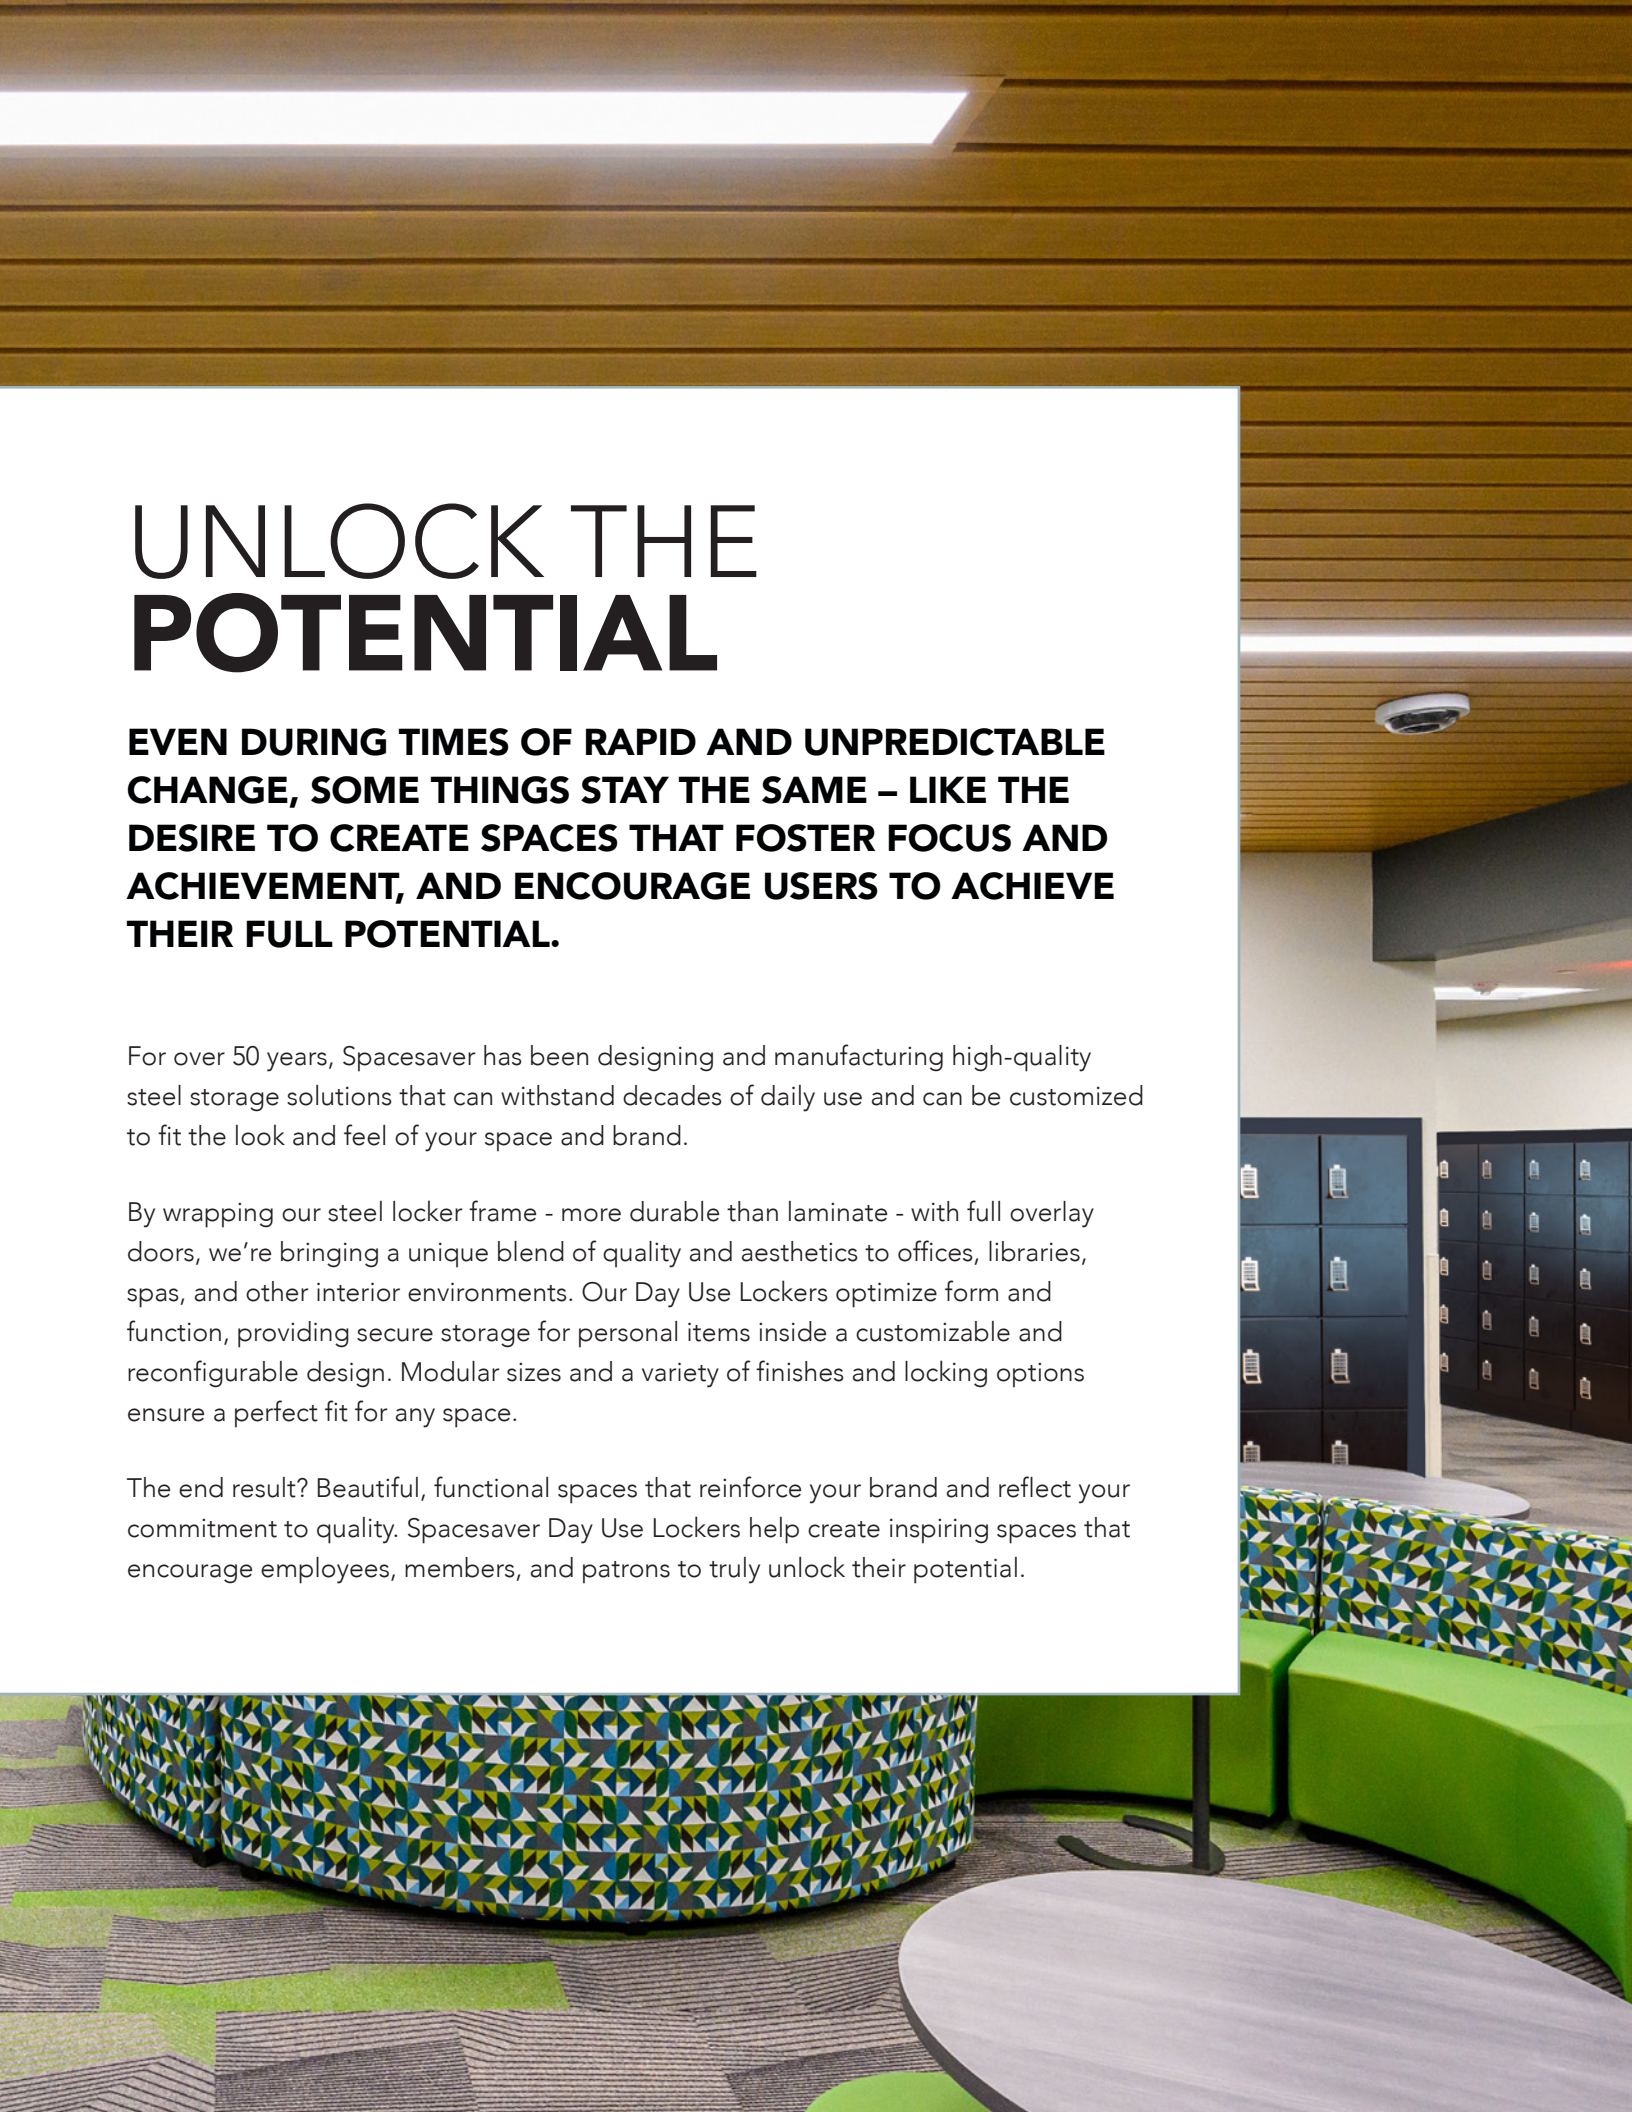

UNLOCK THE POTENTIAL

EVEN DURING TIMES OF RAPID AND UNPREDICTABLE CHANGE, SOME THINGS STAY THE SAME – LIKE THE DESIRE TO CREATE SPACES THAT FOSTER FOCUS AND ACHIEVEMENT, AND ENCOURAGE USERS TO ACHIEVE THEIR FULL POTENTIAL.

For over 50 years, Spacesaver has been designing and manufacturing high-quality steel storage solutions that can withstand decades of daily use and can be customized to fit the look and feel of your space and brand.

By wrapping our steel locker frame - more durable than laminate - with full overlay doors, we're bringing a unique blend of quality and aesthetics to offices, libraries, spas, and other interior environments. Our Day Use Lockers optimize form and function, providing secure storage for personal items inside a customizable and reconfigurable design. Modular sizes and a variety of finishes and locking options ensure a perfect fit for any space.

The end result? Beautiful, functional spaces that reinforce your brand and reflect your commitment to quality. Spacesaver Day Use Lockers help create inspiring spaces that encourage employees, members, and patrons to truly unlock their potential.

- Integrates with other storage solutions

* Five-year warranty on lockers; locks are warrantied by their respective manufacturers

SLEEK. STURDY. SUSTAINABLE. **STEEL ENDURES.**

**STEEL OFFERS LASTING QUALITY AND STYLE,
AND ITS LONG LIFE CYCLE MAKES IT ONE OF THE
MOST SUSTAINABLE MATERIALS AVAILABLE.**

DURABILITY

Lockers with welded steel frames are structurally sound enough to be moved and reconfigured as needs change over time. Additionally, utilizing moisture-resistant powder coat paint reduces weakening of the frame from swelling and delamination that can occur in laminate frames.

AESTHETICS

Spacesaver provides the option of utilizing steel or laminate overlay doors giving endless aesthetic options.

SUSTAINABILITY

Because of its long life cycle, steel is one of the most sustainable materials available today. Spacesaver manufactures its products out of steel that contains a blend of pre- and post-consumer materials. That's why steel lockers are favored by organizations that account for social and environmental costs as well as profits.

CUSTOMIZED FOR YOUR SPACE

Engineered with the end user in mind, our lockers come standard with the features you need to increase productivity and security in your space. Some of our most popular options include:

1. STEEL DOOR

Full overlay steel door with double-wall construction ensures security and durability. Powder-coat finishes available in a broad range of colors.

2. LAMINATE DOOR

Full overlay door available in high pressure laminate finishes. Available in any Wilsonart HPL offering with matching 3mm PVC edge banding options.

3. OPTIONAL INTERIOR HOOK

Integrated hook option available to hang personal belongings inside the locker.

4. OPTIONAL NUMBER TAGS

Adhesive plastic tags are a great option to identify individual lockers.

5. OPTIONAL SLOPED TOP

Prevent dust accumulation and clutter from storing items on top of lockers.

6. HIGH-QUALITY HINGES

Hidden stainless steel slam-proof hinges with adjustable closing rates are thoroughly tested to ensure durability.

7. OPTIONAL REAR VENT

Ventilation incorporated in the back of locker to allow airflow.

8. LEVELING BASE

4" high recessed or flush base with levelers for simple leveling adjustment to any floor.

Interior shelf options available (for openings greater than 28" H) upon request.

SLEEK PERSONAL STORAGE

REALIZE DESIGN GOALS & EXCEED EXPECTATIONS FOR STURDINESS AND LONGEVITY.

OFFICES AND WORKPLACES

REINFORCE YOUR BRAND AND YOUR COMMITMENT TO EMPLOYEES' WELL-BEING

SUSTAINABLE. CUSTOMIZABLE. FUNCTIONAL.

When planning a major renovation, this global brand wanted its commitment to sustainability to extend throughout its headquarters, including furniture and fixtures. The design team chose Spacesaver' Day Use Lockers to help create a modular work environment that could change right along with evolving trends. The lockers' bold graphics can be removed and updated over the years to create a fresh look without purchasing new lockers. Combination locks are a simple, secure solution for when concerns about battery replacement or lost keys arise, and locker alcoves near entry points allow for convenient access.

- 5-Tier, 68"-Tall Day Use Lockers
- Steel Doors in Cottonwood
- Combination Locks
- 4" Recessed Base
- Custom Graphics

ATHLETICS AT **ALL LEVELS**

SECURE YOUR BELONGINGS AND KEEP YOUR HEAD IN THE GAME

STORAGE FOR **THE WIN.**

Whether you're making a difference on the field or cheering on your favorite athletes from the stands, your focus should be on the task at hand and not the safety of the items you brought with. Day Use Lockers offer a secure option for storing your belongings until it's time to go home and celebrate!

FITNESS CENTERS **AND SPAS**

KEEP THE FOCUS ON WELLNESS

PEACE **OF MIND.**

This spa's management team worked with Spacesaver to design RFID-operated lockers that look beautiful, add capacity, and secure members' belongings without the need for keys. The new changing rooms integrate seamlessly with the rest of the spa's clean, natural aesthetic and contribute to a sense of trouble-free serenity. Because the spa was able to add 80 additional lockers while also eliminating the costs of replacing locks and lost keys, the lockers paid for themselves in less than a year.

- 2-Tier, 72"-Tall Day Use Lockers
- High-Pressure Laminate Doors
- Custom Benches
- RFID Locks

LIBRARIES AND CAMPUSES

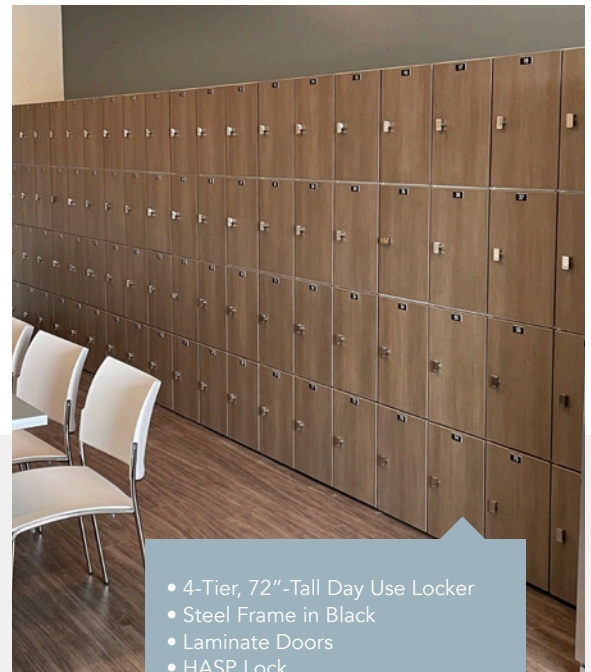

ENCOURAGE BROWSING, PROTECT COLLECTIONS, AND HELP PATRONS CONCENTRATE ON COLLABORATION OR QUIET STUDY

SECURING THE **FREEDOM TO EXPLORE.**

Backpacks and other personal belongings aren't allowed in this large public library's special collections area, so the design team needed to provide convenient temporary storage for these items. The lockers also needed to reflect the building's modern aesthetic and tie in with other design elements. The design team opted for a durable steel locker frame encased in white oak veneer in a counter-height "island" configuration. Now patrons have a convenient place to work or organize their belongings before storing them away.

- 2-Tier, 36"-Tall Day Use Locker
- Steel Frame in Black
- Doors and surround encased in White Oak Veneer
- Digilock Keypad
- 4" Recessed Base

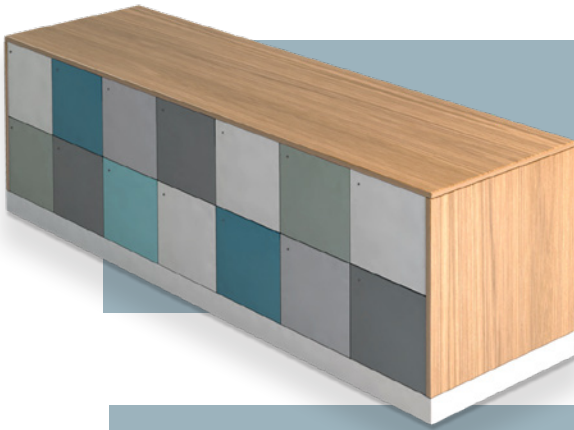

- 4-Tier, 72"-Tall Day Use Locker
- Steel Frame in Black
- Laminate Doors
- HASP Lock
- Number Tags

UNLOCK THE OPTIONS

MODULAR **CONFIGURATIONS.**

Day Use Lockers combine the strength of welded steel with the aesthetics of full overlay doors. They're available in a variety of materials, sizes, and configurations to suit any space. Locker arrangements can be reconfigured and new lockers can be added to existing configurations as needs change over time.

ISLAND

Lockers provide seating or a work surface.

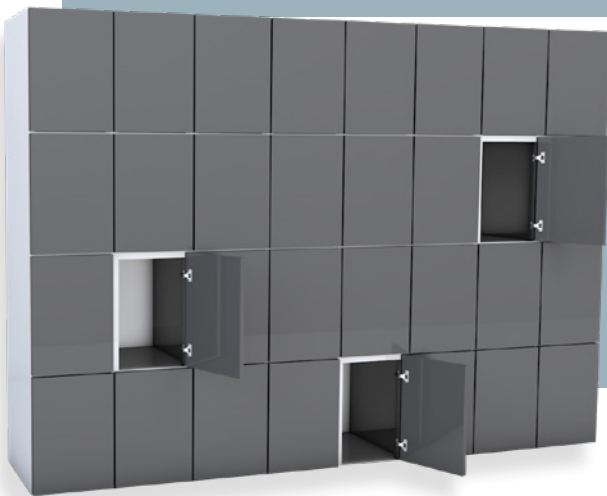

PARTITION

Divide a room with lockers embedded in free-standing walls.

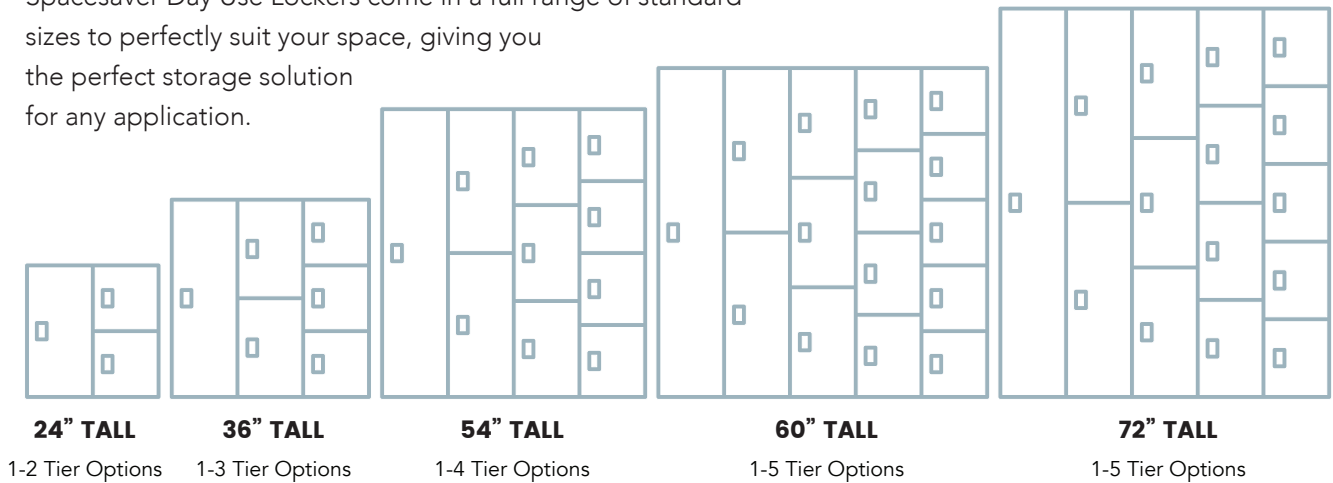

BUILT-IN

Turn unused wall space into productive storage.

LOCKER CONFIGURATIONS:

Spacesaver Day Use Lockers come in a full range of standard sizes to perfectly suit your space, giving you the perfect storage solution for any application.

LOCKER HEIGHT	OPENING HEIGHT	OPENING WIDTH	OPENING DEPTH
24"	12", 24"	12", 15", 18"	12", 15", 18", 24"
36"	12", 18", 36"	12", 15", 18"	12", 15", 18", 24"
54"	13.5", 18", 27" 54"	12", 15", 18"	12", 15", 18", 24"
60"	12", 15", 20", 30", 60"	12", 15", 18"	12", 15", 18", 24"
72"	14.4", 18", 24", 36", 72"	12", 15", 18"	12", 15", 18", 24"

Day Use Lockers adapt to your needs from the start. Our lockers are available in a full range of dimensions with standard heights at 24, 36, 54, 60, and 72 inches, depths at 12, 15, 18, and 24 inches, and widths at 12, 15, and 18 inches.

*Additional sizes available in 1" increments upon request
Not all combinations of tiers and columns is possible given height and width limitations

STORAGE THAT ENHANCES YOUR BRAND

Day Use Lockers provide a secure way to store personal items and can be customized to enhance the aesthetics and experience of your brand.

LOCK OPTIONS FOR SECURING LOCKERS

Pairing Spacesaver Day Use Lockers' durable, steel construction with a wide variety of locks from top manufacturers ensures your lockers will not only be tough enough to last the test of time, but they will also keep stored items safe and secure.

DIGITAL & SMART LOCK OPTIONS

Integrating modern technology with proven dependability, our lockers are compatible with several of the leading digital keyless locks. Further extending this integration, our lockers incorporate smart locking mechanisms that allow users to easily access stored materials and optimize facility management through data tracking capabilities.
